

Centre for Christian Studies

Scent-Free Policy

Policy:

The Centre for Christian Studies will to the best of its ability provide a scent-free environment in Woodsworth House and at its programs.

Protocol:

The Centre for Christian Studies is dedicated to providing a healthy and comfortable environment for all people. The allergy alert notice will be included in the volunteer orientation package, the student handbook, the CCS staff manual, the confirmation letters for resource people and the use of the building document. The brief scent free statement will be included on brochures and continuing education documents.

Brief Scent Free Statement

In recognition of individuals who struggle with asthma, allergies and environmental/chemical sensitivities, please refrain from wearing fragrances and using scented products at CCS gatherings. CCS is striving to be a scent free environment.
